DAIRY AUSTRALIA congratulates all winners

Dairy Australia is proud of the longstanding association we enjoy with the Royal Agricultural Society of Victoria and the 2004 Royal Melbourne Dairy Produce Awards.

Despite the difficulties experienced on farm over the past two years, the Australian dairy industry remains one of this country's most important agricultural industries and on a national level, is now valued at \$8 billion.

For this reason, it is pleasing to continually see the growing variety and quality of Australian dairy produce that is showcased each year in the Royal Melbourne Dairy Produce Awards.

Congratulations to Dairy Farmers: Romano for winning the Supreme Cheese Award

Attaining this prestigious accolade of excellence amongst an impressive field of entrants is testament to their commitment to quality.

We also extend our congratulations to all 2004 gold medal winning products, as they are all now eligible to enter the 2005 Australian Grand Dairy Awards - the 'best of the best' competition administered by Dairy Australia.

Our sincere thanks to the Royal Agricultural Society of Victoria for their ongoing commitment to acknowledging excellence in Australian dairy produce.

Give your product a competitive advantage.

The Australian Grand Dairy Awards symbol is awarded for quality, excellence and innovation. It's a symbol that's awarded to a product only after a panel of technical experts and food professionals have judged it to be the best in its class.

It's a symbol that will give you marketing advantage by adding distinction and recognition to your product. It's a symbol you have to earn by being the best of the best.

Could your product be eligible? If your product has already won gold at state competitions, such as the Royal Melbourne Dairy Produce Awards, it may be eligible for entry to the Australian Grand Dairy Awards.

For more information on product eligibility contact Laura Billings at Dairy Australia on (03)96943704 or refer to the Dairy Australia website at www.dairyaustralia.com.au.
