 - (a) **Duty of Disclosure:** Before you enter into a contract of General insurance with an insurer, you have a duty, under the Insurance Contracts Act 1984 as amended, to disclose to the insurer every matter that you know, or could reasonably be expected to know, is relevant to the insurer's decision whether to accept the risk of the insurance and, if so, on what terms.
You have the same duty to disclose these matters to the insurer before you renew, extend, vary or reinstate a contract of General insurance.
Your duty however, does not require disclosure of matter:
 - * that diminishes the risk to be undertaken by the insurer

3. Nothing herein shall be construed to alter in any way the scope of insurance policy, its terms, conditions or exclusions, issued by insurers.
4. RASV is not liable to the Insured Party in the event a claim is not paid or payable by insurers unless RASV fails to take reasonable steps to advise that the cover is or is likely to be cancelled or not renewed.
5. RASV is not an Australian Financial Services (AFS) Licence holder. RASV is not providing financial product advice, has not considered the particular needs of the insured party and no statement is intended to influence a person or persons making a decision in relation to any insurance cover. REGULATIONS FOR PRODUCTION CLASSES

186. The production figures used in judging will be the weight of butterfat and protein (expressed in kilograms) and volume of milk (expressed in litres) from the lactation begun 1 September 2010, or later to production as at 1 August 2012 with a maximum limit of 305 days.

187. The points allocated for Exhibits entered in Production Classes reflect the dollar value of an Exhibits production in the marketplace. The formula uses the opening season prices for protein, butterfat and volume of one processor: protein (kg) x \$/kg plus butterfat (kg) x \$/kg minus volume (litres) x \$/litre. This figure is then divided by 10 to give the production points. For example, using demonstrative prices and an entrant's production: $(317\text{kg} \times \$9.40 + 369\text{kg} \times \$3.76 - 9154 \text{ litres} \times \$0.028) / 10 = 411.09 \text{ points}$.

188. Certificates of Production must be from recognised Recording Facilities, and entered animals clearly identified.

189. Such certificates must accompany the Nomination Form and be forwarded to the RASV Offices by Friday, 10 August 2012. If certificates are not received by this date, the entries so affected will not be eligible for Production Awards.

190. All records will be verified prior to commencement of the Show, with the appropriate Recording Facility.

191. Only those females placed first, second or third in the Type judging of their class will be eligible. A first prize winner will receive ten (10) points and a second prize winner will receive five (5) points in recognition of their award received in the Type judging. These points will be added to their Production figure and the winner will be the cow with the highest total score.

192. First prize will be awarded to the female having the highest total Type and Production Judging Score. In the event of a tie, the female with the highest Production figure will be the winner. The winning cow will automatically be eligible for the Interbreed Type and Production Award.
