TWENTY-NINTH ANNUAL REPORT

OF THE

COUNCIL

OF THE

Royal Agricultural Society of Victoria.

~~~~~  
*TO THE SUBSCRIBERS.*

LADIES AND GENTLEMEN,

The following is a report of the proceedings of the Society for the year 1899.

### PERMANENT BUILDINGS AND WORKS.

Last year it was mentioned that at the December meeting in 1898, the Council had adopted a report recommending a number of important alterations and improvements in the grounds. All the works proposed in that report have been carried out during the year, the principal items being: Metal road from side gate to front entrance, £142; additions and alterations to pig shed, £334; ventilation of sheep shed, £21; new horse wash, £21; accommodation under grand stand steps, £263 13s.; cinder track round trotting course, £57; new sanitary accommodation, (behind restaurant,) £128, (for members of Society), £177 16s.; extra cattle pens and telephone office, £224 10s. 2d.; and other general minor items bring the outlay on improvements for the year up to £1731 19s. 6d., making the total expenditure on buildings and works at the grounds £35,791 16s. 2d.

## LAPSED AUTUMN SHOW.

As stated in the previous report the Council arranged to hold an Autumn Exhibition on the Show Grounds in March. An attractive and varied programme of prizes was prepared and published; the Show was freely advertised and also well paragraphed, the Society receiving valuable assistance from the press in this connection. Notwithstanding the publicity given to the proposed event, the response of Exhibitors was so disappointing that immediately after the entries closed, the Special Show Committee was summoned to consider the position. After hearing a detailed statement of the number received, they resolved that in consequence of the paucity of entries the Show should not be held, and that the decision should be at once notified to the press. Intending exhibitors were informed that the show was abandoned, and their entry fees were in due course returned to them. The cost incurred in connection with the Show for advertising, printing, and other expenses amounted to £149 15s. 11d. The result of this proposed new departure goes to prove that the great bulk of exhibitors prefer to concentrate their energies on one big event in the year and to make it a conspicuous success, rather than to divide their efforts between two Shows; and it also settles the hitherto annually recurring question of holding an Autumn Show on the Society's grounds, at any rate until entirely new conditions arise.

## THE EXHIBITION.

The Annual Exhibition was held on the 5th, 6th, 7th, 8th and 9th September. The prize schedule was carefully prepared, with a view to making it as comprehensive as possible, and the varied programme attracted 5,006 entries, this being a record number of exhibits, the Society for the first time turning the corner into the sixth thousand. The entry fees and ground rent, an annually increasing item, reached £882 11s., against £775 16s. last year. The gate money, including £365 17s. 6d. at the grand stand, amounted to £3,195 11s. 6d., being £881 6s. 2d. in advance of the previous year. Dealing with the Exhibits in the order of the schedule, the draught horses (122 entries) showed an advance of 20 in numbers from the year before, the high standard and great improvement specially recorded in last report being well maintained. In thoroughbreds there were only 5 entries, the section

being poorly represented. Two Arab stallions were shown as extras. Trotters (27 entries) made a strong section, while in roadsters there was but 1 entry, and 4 Clevelands were shown. Breeding ponies (21 entries) were 5 behind last year, but there was good competition. In heavy-weight hunters (6 entries) the field was the smallest for some years, and in light-weight hunters (18 entries) there was a falling off of 11 from last year's large entry. Juvenile hunters (13 entries) 10 ahead of the year before, was the largest entry yet received for this class. Ladies' hunters (8 entries) were 1 behind the previous year, and high jumpers (5 entries) were 8 short of last year. Hackneys (15 entries) were good classes, and ladies' hackneys (5 entries) were 1 in advance of the year before, while cavalry and mounted riflemen's horses were as last year, small classes. Carriage, brougham and buggy horses (32 entries) were about as last year in number, and of somewhat improved quality, and there were 8 entries of spring cart horses. Saddle and harness ponies (42 entries) 1 in advance of last year, were attractive classes. Shorthorn cattle (139 entries) showed an increase of 31 from the year before, and the usual high standard of the prize-taking animals was well maintained. Herefords (29 entries), 7 ahead of last year, were again of great merit. Polled Angus (7 entries), the same as last year, still showed the falling off specially commented on in the previous report. In Red Polls 2 cows were shown, but for the third time in succession there were no entries in Devons. Ayrshires (239 entries) were 48 in advance of last year's largely increased entry, and Jerseys (121 entries) 8 more than the year before, were an attractive section, strengthened by recent importations. Holsteins (7 entries) were about as last year, and although classes were provided for Kerries and Dexter Kerries, these breeds were not shown. There were 18 entries of dairy cows, and 24 entries of milch cows subject to test, with five pens of dairy heifers, one of the features of the show being the largely increased entry in all the principal cattle sections. There were again 16 exhibits of fat cattle, and 3 heifers were paid up for, for the cattle Derbies. Merino sheep (23 entries) were again a small section. Lincolns (66 entries) were 17 in advance of the previous year, and Leicesters (29 entries) were 4 ahead. Border Leicesters (43 entries) showed an increase of 20 from the year before, and Southdowns (21 entries) were 6 in advance; while Hampshires (19 entries) were 13 ahead. Shropshires (69 entries) again showed a large advance, and were for the second year in succession the largest section of sheep in the show. Special

prizes for pens of three sheep were introduced and resulted in excellent competition. In Cotswolds there were 8 entries, and in fat sheep 34, an increase in the latter of 14 entries. In Swine (176 entries) there was a very large increase, so that the extended accommodation was fully occupied. Poultry (501 entries) showed an increase of 39 exhibits, and Dogs (214 entries) an increase of 58—these exhibits for the first time not being required to come into the yards till the second day of the Show. Carriages and buggies (181 entries) were 58 short of the previous year, but still formed an important section, and in saddlery and harness there were 28 entries, or 3 behind the year before. Farm produce (64 entries) showed an advance of 20 exhibits. Dairy produce (157 entries) were 24 ahead. Wines, &c. (207 entries), were 10 in advance of the year before. Preserves—dried fruits, &c. (25 entries) were 9 ahead of last year, and there were again 4 exhibits of artificial manures. There were 169 stands of machinery (in motion), implements, and miscellaneous exhibits—the largest collection ever brought together on the grounds. The weather, although unfavourable on the Vice-regal day, was the best that has been experienced by the Society for years, and the attendance was very satisfactory, it having been publicly asserted that there were more country people in town in connection with the Show than there were at Cup time. On all hands the increasing importance of the event was commented on, and it may be fairly recorded that it was the best all round exhibition ever held by the Society.

## FLOCK BOOK.

The Central Committee of the Flock Book are continuing to receive and file the annual returns in connection with the flocks registered in the first volume of the Book. They have arranged to appoint a delegate to the International Conference of sheep-breeders to be held in England at York, in June, 1900. The Committee has also recommended the Council to undertake the publication of a Flock Book for Merino Sheep in Australia, and correspondence has been already opened up with the other colonies to ascertain what support will be received before actually undertaking the work, which it is proposed shall be carried out on somewhat similar lines to those so successfully adopted in connection with the Flock Book for British Breeds of Sheep in Victoria.

## CHAMBER OF AGRICULTURE.

At the Annual Meeting in February the retiring President, Mr. Skene, threw out a suggestion for the establishment of a Chamber of Agriculture, which was supported by Mr. Peppin, who afterwards proposed that a Committee should be appointed to deal with the matter. This was done and the Committee recommended that the Society should take the initiative in calling a Conference, to be held during Show week, to establish a Chamber on such lines as the Conference might adopt—the proposed objects of the Chamber being to assist, protect, encourage, and promote the general welfare of the agricultural and producing interests of the colony. A large and representative Conference was held in the Board room adjoining the Society's office on the evening of the 7th September, Mr. Thomson, the President of the Society, being elected chairman, when the following resolutions were passed :—

“That in the opinion of this meeting it is advisable to form an Association, having for its objects the care and protection of the general interests of producers, the promotion of Agriculture in the colony, and the encouragement of minor industries and mixed farming ; to advocate improved methods of cultivation, treatment, and marketing of products ; to collect and disseminate information on all matters of interest to the agricultural community ; to prevent, as far as possible, the introduction and spread of pests ; to foster the desire of our cultivators for technical and scientific knowledge appertaining to their industry ; to use every means in its power for the redress of greivances ; to form a code of practice whereby the transaction of business may be simplified and facilitated ; to arbitrate on all matters submitted by disputants, and to record decisions for future guidance ; and that steps be now taken to form such an Association, to be called **THE VICTORIAN CHAMBER OF AGRICULTURE.**”

“That the Chamber shall consist of a Central body, with branches throughout the colony.”

“That the Council of the Central body shall consist of 40 members—25 to be elected by the contributing Agricultural Societies, 5 by contributing Dairying Companies, 5 by contributing Viticultural and Horticultural Societies, and 5 by individual members of the Chamber.”

“That each contributing Society shall have the privilege of nominating a candidate for a seat on the Central Council.”

“That the Annual Subscription for Societies shall be £1 for every 100 members (or part of 100) up to 500, £1 for every Dairying Company, and 10s. for every individual member.”

“That any person engaged in, or interested in, agriculture, viticulture, horticulture, or dairying shall be eligible as a candidate for membership, and, after election, shall be, on payment of his subscription, eligible for election to any vacant seat on the Council.”

“That candidates nominated by agricultural and kindred societies and dairying companies be elected in the manner following —

(a) A printed list of candidates duly nominated to be sent to each contributing body.

(b) Each contributing body, through its Committee or managing body, to mark with a number the name of each candidate in their order of choice.

(c) The paper then to be sent to the Council of the Central body, whose President, or his deputy, shall act as returning-officer to determine which candidates have been elected; counting the votes by the number against each name, those having the lowest aggregate totals to be declared elected.

(d) In the event of a number of societies forming themselves into a group, they shall have power to elect as many members of Council as will form their fair proportion of the number to be elected.”

“That individual members shall elect their 5 representatives by ordinary ballot.”

“That the Committee appointed by The Royal Agricultural Society to prepare proposals, viz. :—Messrs. W. Thomson, Kynetton; F. Peppin, Loch; and T. Skene, Armadale and Rupanyup—be appointed by the Conference to enroll societies and members, to conduct the first election of Council, and generally to bring the Chamber into working order.”

“That Mr. T. Patterson be appointed Secretary, *pro tem.*”

“That a hearty vote of thanks be passed to the Chairman.”

The Committee appointed to enroll societies and members has taken the necessary action, and has asked for subscription and nominations for 31st December, after which date the first Council of the Chamber will be elected. Mr Peppin has been nominated as representative of this Society.

## THE JOURNAL.

The agreement with Messrs. J. Twomey & Co., the proprietors of *The Farmer and Grazier*, with which the journal of the

Society is incorporated, has been again renewed for 12 months on the same terms as before, and is being carried on very satisfactorily. The show number of the paper this year attracted particular attention. It is of special interest to members of the Society, as it contains an illustrated article on the early history of the Institution.

## THE COUNCIL.

At their first meeting in February, the Council (in accordance with the new rules), elected Mr. William Thomson, president, and Messrs. J. K. Joynt, George Young and A. McCracken, vice-presidents. In October, Sir Rupert Clarke, Bart., resigned his seat on the Council on account of leaving the colony on a tour, after having held office for 14 months. Mr. H. Cliff was elected in his place. During the year two members, Mr. D. Mitchell and Mr. D. Gibson, lost their seats through non-attendance and were re-elected.

## ACKNOWLEDGMENTS.

The Council wish to record their obligations to His Excellency the Governor and Lady Brassey for their kind patronage of the Society's show. They also thank the Hon. the Minister of Agriculture for again granting Gold and Silver Medals for Champion Prizes. They desire to record their warm thanks to the donors of prizes, the list being again headed by His Excellency Lord Brassey, for their very liberal support. They thank the Judges at the Show for the very valuable honorary services, and the Stewards for their active aid, and they cordially acknowledge the enterprise of the press in giving publicity to the show, the illustrations this year having been particularly attractive. They thank the Shropshire Sheep Breeder's Association, Shrewsbury, England, for their Gold Medal. They desire to acknowledge receipt of a bound copy of *The Farmer and Grazier* for 1898 from Mr. J. Twomey, and several pamphlets from the Department of Agriculture, all of which form welcome additions to the Society's library.

## GENERAL

(THE COLLECTOR).

Mr. A. Howlett, who had been appointed Collector to the Society in the previous year, resigned in February, and Mr. Noel E. Ruck was appointed in his place.

(MEMBERSHIP).

Last year it was reported that the Council had taken specially active measures to increase the number of subscribers to the Society, with a considerable amount of success. This year the work has been continued, with the gratifying result that the Society has now over 1,000 subscribers on its roll. This is a record number of members for the Society, and indeed for any Agricultural Society in Australia.

(TROOPS AT SHOW GROUNDS).

On the first occasion of the Government of the Colony sending Troops to South Africa, the Council placed the Show Grounds at the disposal of the Mounted Rifles as an encampment, free of charge, and afterwards received a letter from Colonel Price, thanking them for having done so. The Grounds have again been placed at the disposal of the Defence Department for the accommodation of the Second Contingent.

(TECHNICAL EDUCATION ASSOCIATION).

In last report it was stated that the Society had appointed delegates to a Conference which had determined to establish an Association for the promotion of Technical Education. The Society subscribed to the Association which was duly formed, the Secretary being elected to the Council and Mr. Skene to a vacancy in the Vice-Presidents. Shortly after the establishment of the Association, the Government appointed a Commission on Technical Education which practically cut the ground from under the feet of this Association.

## FINANCE.

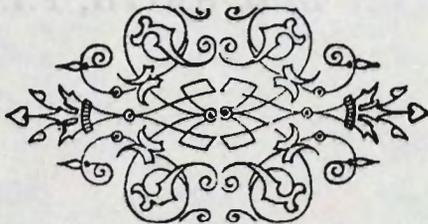

On reference to the financial statement which has been carefully audited (*vide* report below) it will be seen that the revenue for the year amounts to £6521 14s. 9d. and the expenditure to £6197 5s. 5d. (including £1659 7s. prize money). The revenue exceeds that of the previous year by £1162 10s. 5d.; the overdraft at the Bank has been reduced by £324 9s. 4d.; while during the year £1731 19s. 6d. has been expended in permanent buildings and works. This latter sum is an investment, so that practically the working expenses show a profit on the year of £2056 8s. 10d., including provision for £149 15s. 11d. loss on lapsed Autumn Show. The overdraft stands at £4053 4s. 7d., against £4377 13s. 11d. last year.
