Forty-Seventh Annual Report of the Council of the ROYAL AGRICULTURAL SOCIETY of Victoria

To the Members.

LADIES AND GENTLEMEN—

Your Council has pleasure in presenting the following report of proceedings of the Society for the year 1917:—

Permanent Buildings and Works.

The policy decided upon at the beginning of 1916 to refrain from undertaking any further section of the adopted improvement scheme was maintained during 1917, and, with the exception of a few minor alterations to the scullery services and the making of a couple of short lengths of road, no permanent works were carried out, the total expenditure on improvements for the year being only £1303 7s. 9d. The expenditure on the maintenance of the Society's property amounted to £791 1s. 10d. for the year, this sum being spent chiefly in painting and asphalting.

Owing to the increasing popularity of the Society's annual exhibitions and the larger public patronage now being accorded thereto, it has been found impossible to further defer certain necessary improvements to the accommodation at the grounds, but it is not contemplated to carry out in the near future any extensive section of the general scheme.

The old Government Building has for years been quite inadequate for requirements, besides being a serious menace from a fire point of view. In November it was resolved to erect a new pavilion near the Railway Entrance, and the Society's Architects were instructed to prepare the necessary drawings and specifications. Tenders for the erection of this building will be dealt with early in the New Year. The old structure has already been demolished, and is being removed from the grounds.

The Exhibition.

The Annual Exhibition was held from 25th to 29th September, 1917, and, taken as a whole, it was certainly one of the most successful yet held by the Society.

The weather was almost perfect from start to finish, being in marked contrast to the conditions obtaining at the previous Show.

The attendances, which aggregated 162,098, showed the highest daily average yet attained, no fewer than 68,464 people passing through the gates and turnstiles on the public holiday. In 1913, 184,037 people attended, but in that year the Show was open for six days.

At the October meeting it was resolved to again revert to the six days' Show in the future, as practically the whole of the exhibits are on the grounds during the full week even when the Show is not opened till the Tuesday.

The gate money at the last Show, including £1074 10s. 10d. from the grandstands, amounted to £7454 14s. 2d., compared with £4630 10s. 9d. last year and £7312 15s. 9d. received during the six days' Show in 1913.

For the purposes of comparison the following tables are published to show the number of entries in the several sections for the last two years:—

It will be observed that there was a substantial increase in the number of heavy horses exhibited, and particularly in the Clydesdale Section the quality was also well maintained.

Light horses were also in greater numbers, and in the Saddle and Harness Sections some beautiful animals were shown.

The Defence Department made a most interesting non-competitive display of military horses. The stallions, gun teams and cavalry horses were all magnificent examples of the Government's requirements and attracted a very great amount of attention.

Both Beef and Dairy Cattle were in about the same numbers as usual, and a gratifying increase was noticeable in the section for Fat Cattle.

The Sheep Sections were all well filled, and the high general standard of quality that obtained proves the wisdom of the determination to exclude from competition all sheep not registered in the Flock Book.

A phenomenal entry was received in the Swine Section, and it is satisfactory to record that, notwithstanding the marked increase in numbers, the customary high standard of quality was well maintained.

Poultry, pigeons and dogs were all in greater numbers than formerly, the display in the first-named section being right in the forefront of the poultry exhibitions of the Commonwealth.

The competition in the Farm and Dairy Produce Sections was keener than usual, and the facilities for the staging of these exhibits were much better than formerly.

The whole of these competitive exhibits were transferred to the new Agricultural Hall, and the change was entirely successful.

It is believed that by the introduction of a novice class in the section for the Agricultural Societies' Competition, greater support will ultimately be accorded to this important class and a more representative display of the primary products of the State will be forthcoming at future Shows.

The entries in the other sections were much the same as usual, the Women's Industry Classes being, on the whole, better filled than ever before.

The Machinery and Industrial exhibits again proved to be amongst the most interesting features of the Show, and great praise is due to these exhibitors for the highly creditable displays made under such adverse circumstances as are now obtaining. The Industrial exhibitors suffered by reason of the transfer of their stands from one building to the other, and your Council is keeping in touch with the principals of the firms concerned with a view to mitigating as far as is possible the present disadvantageous conditions.

The Draught Horse Stud Book of Australia.

The work of revising the volumes of the Stud Book already published has proved much more difficult than was anticipated, and consequently unavoidable delays have occurred. The bulk of the matter is now in the printers' hands, and it is hoped that this large and valuable volume will soon be ready for distribution.

Entries are now being taken for Volume X., but as a development has arisen which may lead to an amalgamation with the Australian Clydesdale Horse Society, it is improbable that the publication of this volume will be proceeded with.

Your Council has pleasure in reporting that, as a result of a conference held in November last between representatives of this Society and of the Australian Clydesdale Horse Society, it was decided to amalgamate the Clydesdale Section of the Draught Horse Stud Book of Australia with the Clydesdale Society's Stud Book, and that the management of the future Clydesdale Stud Books be in the hands of a Federal Council elected by the breeders.

The general principle of the amalgamation scheme has been approved of by the two Societies concerned, but a few details still have to be arranged.

It is again desired to place on record the Society's appreciation of the valuable services rendered by Mr. Ewen T. Campbell, of Kirk's Bazaar, in checking and extending pedigrees.

The Flock Book for British Breeds of Sheep in Australia.

In May last Volume IX. of the Flock Book was published, and it contained the annual returns of 241 flocks previously registered, together with the histories and particulars of 55 flocks passed and accepted for registration since the publication of Volume VIII. In accordance with the previous custom, all flock histories were revised and brought up to date in Volume IX. In this volume, for the first time, the type standards of the different breeds of sheep, as drawn up by the Flock Book Committee and adopted by the Council of the Society, were published. The Flock Book now comprises 180 Lincoln, 32 English Leicester, 50 Border Leicester, 16 Southdown, 13 Romney Marsh, and 5 Shropshire Flocks, making a total of 296 as compared with 250 in Volume VIII. In addition to the particulars mentioned above, the Flock Book contains the pedigrees of 1368 rams and 464 ewes, which have been registered individually. Applications for the registration of flocks in Volume X. are now being received, and already over 30 new applications are in hand.

The Shorthorn Herd Book of Australia.

The whole of the matter for Volume I. of this Herd Book is now in the printers' hands, and the work of publication is proceeding so satisfactorily that it is expected that breeders will be able to secure copies of this valuable work early in the new year.

An association of beef cattle breeders was formed in New South Wales, one of the objects of which was to publish a Shorthorn Herd Book.

Representations were made to this newly constituted body with a view to securing the recognition of the Herd Book published under the auspices of this Society. The result was entirely satisfactory, and it has now been definitely decided to refrain from publishing a second stud book in the Parent State, and to render every support to the Book already established here in Victoria.

The Ayrshire Cattle Herd Book of Australasia.

Contrary to its usual custom, the Ayrshire Cattle Herd Book Society of Australasia did not publish a volume of the Herd Book during the year, owing to the desire to give Tasmanian and New South Wales breeders a longer period in which to trace the pedigrees of their cattle and arrange for the inspection of short pedigreed females, which they desire to have included in Volume X. The extension of time has enabled many breeders to trace the pedigrees of some of their animals, and thus make them eligible for registration. Members have recently been notified that the work of publication of Volume X. of the Ayrshire Herd Book, which will contain approximately 2000 pedigrees, will be taken in hand early in the new year.

The Australasian Jersey Herd Society (Victorian Branch).

At a representative meeting of Victorian breeders of Jersey cattle, held in the offices of the Royal Agricultural Society of Victoria, on the 19th March, 1917, it was unanimously resolved to form a Victorian Branch of the Australasian Jersey Herd Society. This action was taken in order that more enthusiasm should be thrown into the Society's Victorian affairs. The invitation of the Royal Agricultural Society to make use of its offices was gratefully accepted, and your Secretary was appointed Honorary Secretary of the newly-formed Branch. The work of enrolling members and of taking entries for Volume VI. of the

Herd Book was at once taken in hand, with very satisfactory results, about 60 members having been enrolled to date, and approximately 300 entries received for the main Herd Book and 280 odd entries for the Calf Register. Entries are now being received for Volume VII., and the Committee hopes for a large increase in the number of members, which will make the Victorian Branch a strong body to guard the interests of Jersey cattle in Victoria.

The Chamber of Agriculture.

The Fifteenth Annual Convention of the Chamber of Agriculture was held at Bendigo on 3rd, 4th and 5th July, 1917. It was officially opened by His Excellency the Governor, Sir Arthur Lyulph Stanley, K.C.M.G., and was attended by Senator Russell, representing the Federal Government, the Hon. the Minister for Agriculture, and other leading politicians, as well as by the largest and most representative gathering of rural producers that has yet assembled in the State.

The subjects listed for consideration were keenly debated, and the papers that were read were productive of valuable discussions.

The Constitution of the Chamber was amended in such a manner that each of six districts throughout the State now elect one member of the Executive Committee, and this Society has also been honoured by having its President appointed ex officio a member of the Executive Committee. Your Council expressed its keen appreciation of the compliment thus extended to the Society. A hearty vote of thanks was accorded to His Worship the Mayor of Bendigo and to the President, Secretary and members of the Committee of the Bendigo Agricultural, Pastoral and Horticultural Society for the courtesies extended to the representatives of this Society during their stay in Bendigo.

Horse Parade and Sale.

The Annual Horse Parade and Sale, held at the Show Grounds on Tuesday and Wednesday, the 25th and 26th July, 1917, was one of the most successful yet conducted under the auspices of the Society.

This year, for the first time, the sale of Draught Horses was confined to one week, the Society's being the only parade held in Melbourne. That the arrangement was satisfactory to buyers, sellers and agents is beyond question.

Altogether 176 animals were entered for the parade, which was splendidly attended. There was a good enquiry for stallions and mares of quality, and some very satisfactory prices were obtained. The sales were again conducted in the Horse Pavilion, and arrangements were made for meals in the Royal Luncheon Hall. Refreshments were again obtainable in the Pavilion, and fodder was sold on the Grounds at Melbourne rates, as in previous years.

Membership.

The membership of the Society shows a gratifying increase on last year's figures, the gain being 274. A pleasing feature has been the large increase in the number of Life Members. One new Life Governor and 23 Life Members were enrolled during the year. This increase easily constitutes a record for the Society. The Membership Roll now stands at 2373.

Show Holiday.

In the last annual report it was recorded that the State Government had decided to refrain from granting authority for the holding of race meetings within the suburban area on the public holiday, which has been specially granted for the Society's Annual Show.

It is with extreme regret that it has to be reported that, in face of a definite written assurance by the then Chief Secretary that the Society's request would be granted, that member of the State Ministry permitted a race meeting to be held on the Richmond racecourse on the Show Day Public Holiday.

It is hoped that arrangements will be made before the 1918 Show which will secure to the Society the reservation of this holiday for the purposes for which it was granted.

Jumble Sale.

The final returns for the Jumble Sale held at the 1916 Show in aid of the ruined agriculturists of Allied Countries were not available at last annual meeting.

This fund was definitely closed during the year, and it is pleasing to record that a sum of £2273 3s. 11d. has been remitted to the Honorary Treasurer in London.

Veterinary Inspection of Mares.

At the 1916 Show the veterinary inspection of mares was insisted upon for the first time, and no mare was permitted to com-

pete for a prize unless she was certified to as being free from hereditary unsoundness. Twenty-six per cent. of the mares failed to secure certificates on that occasion. This year the percentage of rejections was reduced to twenty, and the opinion is strongly held that this satisfactory rate of reduction will be maintained for several years.

Many breeders are still antagonistic to the principle of veterinary examination, and in order to minimise the risk of rejection in the show ring, and to avoid the expense of bringing unsound animals to Melbourne, arrangements have been made so that at Ccountry Stallion Parades Government veterinary officers will be empowered to examine for certificates all mares intended for exhibition at future Royal Shows.

New Offices.

For some time past the office accommodation at the Equitable Building was found to have become both unsuitable and inadequate for the growing requirements of the Society. New offices were therefore sought.

The Society was fortunate in being able to secure a satisfactory suite on the second floor of Collins House. These rooms have been suitably furnished, and should meet the Society's requirements for a considerable period.

Wool Storage.

Owing to the dearth of shipping and delays in the appraisements of this season's wool clip, the leading wool broking firms have experienced some difficulty in securing adequate storage accommodation. Your Council is pleased to report that arrangements have been made for the placing of many of the buildings at the Show Grounds at the disposal of the wool firms, and a very satisfactory addition to the Society's revenue will be made by reason of the rents received from this unexpected source.

The Council.

As the nominations for election at the annual meeting were not in excess of the number of vacancies on the Council there was no poll, and the whole of the members whose seats had become vacant by effluxion of time were declared re-elected.

In June last Mr. C. W. Campbell tendered his resignation as a member of Council, and Mr. R. O. Blackwood was elected in his place. Mr. H. A. Currie is still on active service, and though

he has been wounded on more than one occasion, your Council is pleased to report that he has again almost completely recovered. Mr. A. E. T. Payne is still in London on duty in connection with the administration of the Red Cross Fund. The necessary leave of absence was granted to these gentlemen to enable them to retain their seats on the Council.

Owing to continued ill health, Mr. Job Smith, the "Father of the Council" and one of the Trustees of the Society, has been unable to attend the monthly meetings of Council for the last five months.

Notwithstanding Mr. Smith's advanced age—he being in his ninetieth year—it is pleasing to record that his health has so far improved that he is now able to leave his room again, and it is earnestly hoped that his return to health and strength will be both speedy and complete.

The Journal.

"The Australian Farm and Home," with which is incorporated the Society's official journal, still gives accurate reports of the proceedings of the monthly meetings of Council. It contains, in addition, a number of interesting articles on matters of keen interest to the Agricultural Section of the community.

Acknowledgments.

Your Council desires to extend to His Excellency the Governor-General and Lady Helen Munro Ferguson the Society's warmest appreciation of the interest they displayed in the Society's Annual Exhibition, and to His Excellency for awarding a very handsome cup for competition in the Thoroughbred Section of the recent Show. They desire to thank His Excellency the Governor for officially opening the Show, and for the warm interest that he takes in every department of the Society's operations. The Society's warmest thanks are due to the Government of Victoria for continuing the grant of the annual subsidy, and for awarding a number of special prizes for competition at the recent Show. They desire to acknowledge their appreciation of the liberal support accorded to the Society by the donors to the Prize Fund. To the judges and stewards they again tender their most cordial thanks for the highly satisfactory manner in which they carried out their onerous duties at the recent Show. It is also desired to thank the Press for the manner in which the Society's operations were kept prominently before the public, and to all others who assisted in furthering the interests of the Society, your Council extends its warmest thanks.

Finance.

On reference to the Financial Statement, it will be seen that the revenue for the year was £18,650 12s. 5d., as against £29,722 0s. 6d. last year. In the latter amount a sum of £6,800 compensation from the Defence Department, and an advance of £8,707 8s. 1d. as portion of the Government Loan were included, hence the actual revenue for 1916 was only £14,214 12s. 5d. or £4,436 less than in 1917.

The expenditure (including £4,472 1s. 6d. in cash prizes, and £1,303 7s. 9d. for buildings and improvements) amounted to £16,663 13s. 2d., the bank overdraft being reduced from £22,278 17s. 11d. to £20,291 18s. 8d., whilst the Society's indebtedness to the Government, inclusive of interest, has decreased during the year from £22,673 18s. 3d. to £22,618 14s. 3d.

Taking the expenditure in permanent improvements as an asset, the working expenses show a profit on the year's transactions of £3,290 7s. as against last year's profit of £756 7s. 3d.

- (5.) By promoting the discovery, investigation, and introduction of new varieties of cereals, vegetables, or grasses suitable to the climate, and capable of being cultivated with profit; and also the introduction of desirable kinds and varieties of live stock.
- (6.) - (8.) By remunerating any person for original research work leading to the advancement of the objects of the Society.
- (9.) To do all such other lawful things as are incidental or conducive to the attainment of the above objects.

3. The Society shall consist of a President, three Vice-Presidents, four Trustees (three of whom shall be appointed as hereinafter provided, and one shall be appointed by the State Governor), Governors, Members, Honorary Members, Honorary Scientific Members (not exceeding six in number), and Corresponding Members. The term "Member" shall (unless the context otherwise requires) be deemed to include a Life Member, Life Governor, and Governor.

of the same, and shall have all the rights of membership till the day after the Annual Meeting next ensuing. Provided that when any subscription shall be paid in the name of any firm or company such firm or company shall nominate in writing one of the members thereof, who shall on the receipt by the Secretary of such nomination, be entitled to and exercise the rights and privileges of membership, and be bound by the Rules, By-Laws, and Regulations of the Society, and may be elected to any office.

5. Governors shall pay a subscription of three pounds, and Members one pound annually in advance, with power to compound for life by the payment in one sum of ten annual subscriptions.
