FIFTIETH ANNUAL REPORT
OF THE
COUNCIL
OF THE
ROYAL AGRICULTURAL SOCIETY
OF VICTORIA.

TO THE MEMBERS,

LADIES AND GENTLEMEN,—

Your Council has pleasure in presenting the following report of proceedings of the Society for the year 1920:—

Permanent Buildings and Works.

During the year no less a sum than £15,485/14/4 was expended in carrying out further permanent improvements at the Show Grounds.

The erection of the No. 3 Cattle Pavilion was the last of the work undertaken in connection with the scheme for which the Government had advanced to the Society a loan of £40,000. This pavilion, which is constructed of brick, and is 327 feet in length by 100 feet in width, provided specially commodious accommodation for nearly 200 head of cattle. This is the largest cattle pavilion so far erected in the Commonwealth. The total cost of the building, together with internal fittings and the provision of electric light and water services, amounted to £8991.

An artistic Alfresco Tea Room was built in the neighbourhood of the Industrial Hall. This, together with the hot-water service that was provided, cost £1881.

Chief amongst the other works were the roofing and seating of the Cliff grandstand, and the provision of an up-to-date cloak room near the main entrance.

A large picnic ground was laid out at the rear of the Government Pavilion. The lawns and rockeries that embellished this area were greatly admired, and the kiosk from which hot water was obtainable free of charge was greatly appreciated by the general public.

During the year every effort was made to devise a system of barriers which would prevent the crowding that usually takes place at the railway exit gates, at the luncheon room ticket windows and at the change boxes, and whilst the systems that were provided did not prove wholly adequate on the public holiday, it was recognised that, with very slight alterations, a very satisfactory system can be installed.

Considerable extensions were made to the water services throughout the grounds, and in order to avoid congestion additional sets of steps were provided at the arena bank.

A novel feature was the provision of a complete model of the Show Grounds, which showed at a glance the lay-out and contour of the grounds and the relative positions of the buildings. This proved of very great advantage not only to exhibitors, but to the general public as well. It is your Council's intention to retain this model for exhibition at future shows.

Permanent coops and benching were erected in the pigeon house, which now meets with practically the unanimous approval of the whole of the pigeon fanciers of the State.

The ventilation of the sheep shed was improved, as was also the drainage in the No. 1 Cattle Pavilion.

A large shed was provided for the storage of poultry coops and swine crates, and a special platform was erected for dealing with the consignments of poultry that are dispatched to and from the Show Grounds by the Railway Department.

In addition to the works enumerated were many of a minor character, which were all carried out with the object of improving the facilities for exhibitors, or for providing additional comfort for Show patrons.

The Exhibition.

The annual exhibition was held from the 20th to the 25th of September. The prize schedule was again carefully revised, and many new classes were added. Notwithstanding that conditions were embodied which had a tendency to restrict the number of exhibits, a very heavy entry in the competitive classes was received; and whilst non-competitive stands were again satisfactorily filled, it is recorded with regret that, owing to trouble with a section of the agricultural and dairy machinery exhibitors (which originated in the Society having found it necessary to increase the stand charges), the number of exhibits of agricultural and dairy machinery fell far below that of previous years.

The Society was not so fortunate so far as the weather was concerned as during the two previous years, but, nevertheless, an aggregate attendance second only to that of last year was secured.

During the six days 186,186 people were admitted to the grounds, and the gate money, including £1571/3/- from the grandstands, amounted to £11,627/14/11, being £1789/1/- in excess of the highest amount previously taken. The added receipts were due to the higher charges that were made for admission to the grounds and grandstands, 6d. being added to the charge for admission to the covered stands, whilst the charge for admission to the grounds for adults was raised from 1/- to 1/6, the charge for the admission of children remaining at 6d., as in previous years.

For the purposes of comparison, the following tables are published to show the number of entries in the several sections for the last two years:—

Totals	7,993	7,423
Non-Competitive Entries	2,173	1,648
	10,166	9,071

It will be observed that, whilst the number of entries in the light horse sections showed an increase on those of last year, there was a substantial falling off in the number of entries in the heavy horse sections. This, no doubt, was attributable to the unfavourable season and the low price that had previously obtained for young stock. It is noted with satisfaction, however, that the general standard of quality was well maintained, notwithstanding that the number of exhibits was smaller than usual.

Owing to restrictions made in the number of entries allowed each exhibitor, fewer cattle were entered, but here again the standard of quality (particularly in the female classes) was on the whole higher than formerly, whilst the number of exhibits forwarded for sale purposes only was very much reduced in number.

Although a good deal of interest is still maintained in the "Weekly Times" Butter Fat Test, it is regretted that this competition does not receive a greater measure of practical support from dairy cattle breeders.

Taken as a whole, the sheep entries were not as numerous as last year, a falling off in the classes for British breeds of sheep being no doubt due to the comparatively low price that was prevailing for all wool except the finest Merino.

Fleeces were again displayed to advantage in the Government Pavilion, and, whilst the entries were not as numerous as might be expected, the educational value of this exhibit is generally recognised.

Swine were again in goodly numbers, and it was pleasing to note that the number of exhibits forwarded for sale purposes only was reduced very considerably when compared with the shows of a few years ago.

Judging competitions for youths were introduced for the first time, and, though not availed of to any great extent, it is believed that so much interest was created that the future success of these competitions is assured.

A magnificent display of poultry and pigeons was again made, the conditions obtaining in these sections being now to the complete satisfaction of exhibitors, judges and public alike.

An increased entry was made in the dog section, and for the purpose of making the available accommodation adequate for the large number of dogs that were entered, the Show was divided into two parts, half of the exhibits being benched on the first three days, and the remainder on the last three days of the Show. Whilst this innovation did not meet with the entire satisfaction of the exhibitors, the overcrowding that was noticeable in previous years was overcome. Consideration is now being given by the Council to the practicability of providing additional accommodation for this section in the near future.

A larger entry was received in the farm produce section than usual, but there was a slight falling off in the number of dairy produce exhibits. In a State in which dairy produce provides so large a proportion of the revenue derived from rural activities, it is difficult to understand why a more representative display is not made at the annual Shows.

The Agricultural Societies' Competition again provided a magnificent display of produce, and the societies concerned are to be warmly congratulated upon the fine collections that they all brought to demonstrate the fertility of their respective districts.

The State Schools provided a much more artistic display than usual, the exhibits being of a higher standard and more tastefully arranged than formerly.

An excellent entry of wines was again made, whilst in the fruit section the exhibits were about 30 per cent. in excess of those of last year.

The popularity of the section set apart for women's industries was well maintained, and the exhibition was larger and more comprehensive than in any previous year, whilst the exhibits were also displayed to better advantage.

The arena events again provided a great deal of interest to the general public, and the competitions were carried out with almost an entire absence of anything in the nature of a serious accident. The trotting contests have greatly increased in popularity in recent years, and there is now a general desire that a more extensive classification of trotting events should be provided in the future.

The display of industrial exhibits throughout the grounds was of a most comprehensive character, all branches of the motor industry being particularly well represented.

In the exhibit halls, and indeed throughout the whole grounds, many of the stand-holders went to considerable trouble and expense in arranging their exhibits in the most suitable manner possible.

The Railway Department is deserving of the Society's warmest commendation not only for the expeditious manner in which the vast crowds of people were dealt with, but for the very great improvements that were made in handling the exhibits that were forwarded to the Show.

Taken as a whole, the catering was more satisfactory than formerly, but instances were brought under the notice of the Council where visitors had been considerably overcharged for refreshments. These matters were promptly dealt with, and steps have been taken which should eliminate this annoyance in future years.

Visit of His Royal Highness the Prince of Wales.

The visit of His Royal Highness the Prince of Wales provided a unique opportunity for demonstrating the loyalty and esteem with which the British throne is regarded by the vast majority of the citizens in this outpost of the Empire.

One of the features of the Victorian programme for the entertainment of His Royal Highness was a special exhibition of stock and produce that was held at the Society's grounds on Saturday, 29th May.

Breeders of pure stock and producers of all varieties of the fruits of the soil responded in a whole-hearted manner to the invitation to co-operate in making this function the success that it achieved.

The Show Grounds were suitably decorated with trophies representative of the chief rural activities of the State, as well as by a wealth of bunting, Venetian masts and decorative shields.

A programme of typically Australian arena events was arranged, and, as fine weather prevailed, the contests and displays were warmly appreciated by the large crowd that had assembled. Invitations were extended to the members and lady friends of every agricultural society and rural producers' organisation throughout the State, and light refreshments were served to all members of this Society, as well as to all ladies in possession of the current year's ladies' tickets.

On a specially erected dais in front of the main grandstand, an illuminated address was presented to His Royal Highness.

The text of the address was as follows:—

To,—

His Royal Highness Edward Albert Christian George Andrew Patrick David, Prince of Wales, Earl of Chester in the Peerage of England, Duke of Rothesay, Earl of Carrick and Baron of Renfrew in the Peerage of Scotland, Lord of the Isles and Great Steward of Scotland, K.G., P.C., G.M.M.G., G.M.B.E., M.C.

May it please your Royal Highness,

We, the President, Vice-Presidents, and Members of Council of the Royal Agricultural Society of Victoria, most humbly approach Your Royal Highness with respectful assurances of our loyalty and devotion to the throne and person of His Most Gracious Majesty the King.

As representatives of the great and important agricultural and pastoral industries, we desire to extend to Your Royal Highness a sincere and heartfelt welcome to this fertile State.

We keenly appreciate the great honour conferred upon the primary producers of Victoria by your presence at our Exhibition grounds to-day.

We confidently predict that your visit to our vast Commonwealth, and the sister Dominion of New Zealand, will reveal that these outposts of our glorious Empire are indissolubly associated with the might and progress of the Mother Land.

We trust that Your Royal Highness will have a pleasant sojourn in this State, an enjoyable tour, and a safe return to the heart of the Empire, from which you first set forth.

CHARLES E. MERRETT, President.
HENRY SCHWIEGER, Secretary.

The following is a copy of the reply to the address:—

Melbourne,
May 29, 1920.

The President,
Royal Agricultural Society of Victoria.

Sir,—

I am directed by the Prince of Wales to convey to you his sincere thanks for the loyal address of welcome presented by you to-day, on behalf of the Council of the Royal Agricultural Society of Victoria. His Royal Highness much appreciates the important influence exercised by your Society in the development of the agricultural and pastoral industries, and greatly enjoyed the interesting exhibition which he attended this afternoon. He is grateful for your good wishes, and will be happy to convey your assurances of devotion to His Majesty the King.

I am,

Your Obedient Servant,

E. W. M. GRIGG, Lieut.-Colonel,
Secretary to H.R.H. the Prince of Wales.

Expressions of appreciation and thanks to the Society for having organised the special Show were received from many quarters, chief amongst which were from Major-General Sir C. B. B. White, the Commonwealth Organiser for the Royal Visit, and from the delegates who were assembled at the Annual Farmers' Convention.

Notwithstanding that a sum of £547 was received as gate money from those who did not receive invitations to the special Show, the net cost of the function was £957/14/7.

Draught Horse Stud Book of Australia.

Towards the end of November copies of the Revised Edition of Volumes I. to IX. of this Stud Book became available for distribution. The book, which contains 650 pages of pedigrees, as well as 150 pages of indices, has been very favourably commented upon by all who have had an opportunity of perusing it.

At its last meeting, your Council placed on record its keen appreciation of the services of Lieut.-Colonel Ewen T. Campbell, which he had rendered in an honorary capacity since the Stud Book was established, and without which it would have been impossible to secure much of the information published in the new book.

As a slight token of esteem, Lieut.-Colonel Campbell's photograph has been reproduced in the book, and he has been presented with a copy suitably bound and inscribed. The special interest taken in this work by Mr. L. Monod, the Assistant Secretary to the Society, was also recognised by the presentation of a specially bound souvenir copy of the Stud Book.

With the publication of this revised volume, the Clydesdale section of the Draught Horse Stud Book of Australia practically ends, for, when Volume X. is published, it will only include those animals already accepted for registration as Clydesdales under the regulations then in force, whose pedigrees do not permit of their being included in the first volume of the newly established Commonwealth Clydesdale Stud Book; for, under an arrangement arrived at when first the amalgamation of the Clydesdale section of this Stud Book with the Australian Clydesdale Stud Book

was discussed, every animal submitted for registration in Volume II. of the Australian Clydesdale Stud Book and Volume X. of the Draught Horse Stud Book of Australia that was found eligible for the Commonwealth Clydesdale Stud Book was to be transferred thereto without further cost to the entrant.

Commonwealth Clydesdale Horse Society.

A meeting of representatives of the branches of the Commonwealth Clydesdale Horse Society was held at the Show Grounds during Show week, when the Federal Council was formally constituted, and Mr. H. Schwieger, the Secretary of the Victorian Branch, appointed Federal Secretary and Treasurer (pro tem.).

Several matters of interest were discussed, and it was decided that an Editing Committee should be appointed to review the entries accepted by the branch secretaries just prior to the publication of each volume.

It was also resolved that animals registered in other stud books which were, on pedigree, eligible for registration in the Commonwealth Clydesdale Stud Book could be transferred to that book on payment of half the amount of fees being charged for the registration of animals not so registered.

It was further decided that any person may become a member of any branch of the Society on payment of the subscription fee, whether such person was a breeder or owner of Clydesdale stock or not.

Now that the new Society has been firmly established, efforts are being made to strengthen the Victorian branch, and to persuade breeders to submit their Clydesdale stock for registration in the initial volume of the new Stud Book.

Flock Book for British Breeds of Sheep in Australia.

Volume 12 of the Flock Book was published in June last, and contained the annual returns for 1919 of 377 flocks previously registered, together with histories and particulars of 35 new flocks.

Volume 13 is now being prepared for publication, and it is hoped to have this ready for distribution early in May next. A number of new flocks will be included in this volume, but, owing no doubt to the present unsettled state of the stud sheep market, coupled with the decrease in wool values, a number of breeders have failed to submit their annual returns; consequently, their flocks will cease to be regarded as registered, and will be omitted from the volume.

Your Council recently decided that exhibits in the Dorset Horn, Suffolk and Hampshire sheep sections at the Show, in the year 1924 and thereafter, must be registered in approved Flock Books. At present these breeds of sheep are not represented in the Flock Book, but, owing to the Council's decision, a few applications for registration have come to hand.

Owners of pure flocks of these breeds of sheep are advised to make early application for their registration, as, under the existing rules, four years must elapse before they can be accepted.

The Committee again paid out of the Flock Book funds special prizes of £5/5/- each to the owners of the winning sires in the four Longwool sheep sections at the recent Show.

The Shorthorn Herd Book of Australia.

The work of checking and extending the pedigrees of cattle submitted for registration in Volume II. of this Herd Book has gone on steadily throughout the year, and, although a great deal of difficulty has been experienced, it is pleasing to note that the work is now just approaching completion. Numbers will be allotted during January, and should no delays occur through shortage of coal or other restrictions on the use of power, copies of the completed volume should be available early in the new year.

Your Council again desires to place on record its keen appreciation of the services of Mr. D. C. Morpeth, the Editor, who has throughout the year given much of his time to the work of revising and verifying the pedigrees.

The Australasian Jersey Herd Society (Victorian Branch).

The success which has attended the efforts of the Committee of this branch to further the interests of the Jersey breed in Victoria is evidenced by the large number of members enrolled and the greatly increased number of animals submitted for registration during the year, the pedigrees of no less than 511 bulls and cows and 631 calf entries, together with a large number of transfers and applications for the registration of prefixes or affixes, and tattoos or fire brands, having been forwarded to the Federal Council for inclusion in Volume VIII. of the Herd Book.

As a result of a recommendation made by the Victorian branch, and adopted by the meeting of the Federal Council held in Sydney at Easter time, the offices of the Federal Council have been transferred to the Royal Agricultural Society of New South Wales, and the staff of that Society will in future carry out the work of the Federal Council, and it is hoped that more satisfactory results will be obtained.

It is the desire of the Federal Council of this Society to publish a copy of its Herd Book annually, but that has not yet been found possible; indeed, quite a number of difficulties have been experienced, the latest being a delay in the publication of Volume VIII. owing to the total destruction by fire of all the matter set in preparation for printing that volume.

Two special prizes of £5 each were again awarded in the Jersey section at the Royal Show, and, in addition, the sum of £10/10/- was donated towards this Society's jubilee grandstand scheme.

The second booklet to be compiled by the branch was published during the year, and contains a complete list of milk and butter fat records of standard certificated Jerseys from 1913 to 1920 inclusive, together with a list of sires and their tested daughters and their records. Copies of this booklet have been widely circulated, and very favourably commented upon.

Entries for Volume IX. of the Herd Book, the closing date for which has been fixed for 31st March next, are now coming in freely, breeders no doubt taking full advantage of the fact that this is the last volume in which animals, whose sires and dams are not already registered, will be accepted.

The Ayrshire Cattle Herd Book Society of Australasia.

In accordance with the usual practice, a further volume of this Society's Herd Book (Volume XII.) was published during the year, although considerable delay in the publication was caused by the printers' strike and the shortage in coal supplies.

The new volume contains the pedigrees of 1371 animals which had been submitted for registration since the publication of Volume XI.

The active support of Ayrshire breeders throughout Australia is proved by the greatly increased membership list appearing in the new volume, and it is pleasing to note that a large number of entries is already in hand for Volume XIII. of the Herd Book, although entries do not close until 1st February next.

Financially, the Society is in a very satisfactory position, in spite of the fact that the cost of publishing the Herd Book is now greatly increased.

The annual meeting of members of the Society held during Show week was largely attended, and many important matters were keenly discussed.

The action of the Editing Committee in debarring for life one of the members of the Society from entering cattle in the Herd Book on account of the fact that he had, in the opinion of that Committee, submitted a wrong pedigree for an animal which he desired to have registered in the Herd Book, was unanimously approved of.

An announcement that a live branch of the Society had been formed in Tasmania was received with satisfaction.

The question of herd testing was again brought up on a motion submitted by the New South Wales branch that the Society should set apart a place in the Herd Book for cows which have qualified under the Government herd-testing scheme, but on being put to the vote the motion was lost.

The Ayrshire Society has also donated a sum of £10/10/- towards this Society's jubilee grandstand scheme.

The Red Polled Cattle Breeders' Association of Australasia.

The Council of this Association has been actively engaged during the year in examining the herd histories and pedigrees of animals submitted for registration in Volume I. of the Herd Book, entries for which closed at the end of November.

It is pleasing to note that over 500 applications for registration have been received from breeders in Queensland, New South Wales, Western Australia and Victoria, as well as from New Zealand.

A large number of members has been enrolled, and the Association is in a very good position financially.

It was decided at the annual meeting held during Show week that the publication of Volume I. be gone on with at once, and every effort is being made to have copies available early in the new year.

The Friesian Cattle Club of Australia.

The constitution of this club was recently altered to permit the formation of branches in the various States, such branches having full power to control their internal affairs. The governing body under the new constitution is a Federal Council, consisting of councillors elected by the branches on the basis of one councillor for every ten members.

Branches have already been formed in Queensland, New South Wales, South Australia and Victoria, the secretarial work of the latter branch being carried out by this Society's staff.

The Chamber of Agriculture.

The 18th Annual Convention of the Chamber of Agriculture was held at Port Fairy on the 22nd, 23rd and 24th June, 1920. It was officially opened by His Excellency the Lieutenant-Governor, Sir William H. Irvine, K.C.M.G., and was attended by members of the Federal and State Parliaments, as well as by a large and representative gathering of rural producers from all parts of the State.

The subjects that were listed for consideration were keenly debated, and the papers that were read and the addresses that were delivered were productive of valuable discussion.

During the year the Society referred to the Chamber the question of endeavouring to secure the provision of better facilities for the handling of live stock that is sent to the metropolitan markets, and the Chamber is now dealing with this matter in such a manner that early and favourable results are anticipated.

During the year the Executive Committee of the Chamber in its capacity as a Board of Appeal dealt with the disqualification that was imposed by this Society in connection with the Farm Crop Competition. The disqualification was endorsed and due notification was forwarded to all branches of the Chamber.

Annual Horse Parade and Sale.

The annual horse parade and sale conducted under the auspices of this Society was held at the Show Grounds on Tuesday and Wednesday, 20th and 21st July, 1920.

Owing to the adverse season, only 69 entries were received, the whole sale averaging £66/7/4 per head, as compared with £71/15/- for each animal sold at the 1919 parade.

The parade was well attended, and the railway arrangements for trucking and the provision of fodder, as well as the arrangements for housing the stock, were quite satisfactory.

After paying all expenses, the loss on the parade amounted to £12/9/-, as compared with a profit of £6/0/2 for 1919.

Cattle Sales.

As decided at the meeting of Council held in October, 1919, a pure stock sale of registered cattle was conducted under the auspices of the Society on the Show Grounds on Tuesday, 25th May.

One hundred and forty-five entries were received, representing the following breeds:—Ayrshires, Jerseys, Red Polls, Friesians, Milking Shorthorns, Guernseys and Herefords, and the animals were all comfortably stalled in the No. 1 Cattle Pavilion.

The attendance of buyers was only fair, but many sales at reasonable prices were effected.

The adverse season precluded this year's fixture from being as successful as could be desired, but on all sides the opinion was expressed that the Society, in conducting these sales, had taken a step in the right direction.

The Jubilee Show.

Arrangements are well in hand for making the Society's forthcoming Jubilee Show one of the most memorable in its history.

In order to commemorate the event, your Council approved of a scheme for financing the erection of a new members' grandstand. This scheme provides that about 1000 life members should be enrolled at a subscription of £10/10/- each.

At the close of the financial year an amount of £9079 had been promised of which £7688/10/- had actually been paid into the trust account which had been opened for receiving subscriptions.

It is hoped that in the near future sufficient promises will have been made to justify the Council in commencing at least a section of the building operations.

Advantage was taken of the visit of the Prince of Wales to have a memorial tablet placed upon the central panel of the proposed new grandstand, and His Royal Highness was gracious enough to wish the scheme every success.

Agricultural Scholarships.

The Society's scholarship for 1920 was awarded to Master J. R. Vicary, who has proved to be a very satisfactory student.

The holder of the 1919 scholarship, whilst being particularly efficient in actual farming operations, did not make sufficient progress in his theoretical studies, and at the conclusion of the second term left the college to take up practical work on his father's farm.

Membership.

The membership of the Society has shown a gratifying increase over last year's record figures. The total membership now stands at 3857.

At the last annual meeting of the Society the amount of the members' annual subscription was raised from £1 to £1/5/-, and increases were also made in the amount of the life members' and life governors' subscriptions. A further amendment to the constitution is to be submitted for consideration at the annual meeting. This amendment has for its object the making of a further increase in the amount of the subscription payable by life members.

Wool Storage.

During the year the Society was again able to lease a large number of buildings for the storage of wool, etc., and from this source a revenue of £2013/15/3 was received.

Contracts have been entered into with the Defence Department for the leasing of the Poultry Pavilion for the storage of military vehicles, and with several wool-broking firms for the storage of wool, which, it is hoped, will provide a revenue approximating £1500 during the current season.

Farm Crop Competition.

A Farm Crop Competition was conducted in the Wimmera district, under the auspices of the Society. There were ten competitors, each of whom was a prize-winner in a competition conducted by his local agricultural society. The winner of the first and second prizes secured 222 and 204 points respectively, out of a possible 300.

The competition proved so interesting, and was so satisfactorily conducted by Mr. H. A. Mullett (the judge appointed by the Department of Agriculture), that it was decided to hold another competition in the same district during the present season.

It was in connection with this competition that an exhibitor was disqualified, and debarred from ever joining this Society or competing at any future shows, on account of his having approached the judge in an attempt to influence the latter's decision. The competitor in question has, through the medium of the Chamber of Agriculture, now been precluded from competing at any agricultural show in the State.

The Council.

At the last annual meeting, sixteen nominations were submitted for the eleven vacancies on the Council. The ten retiring members who sought re-election, and Mr. M. C. G. Hutton, who is a representative of the wine-growing industry, were successful in securing the highest number of votes, and were declared duly elected for a period of three years.

It is pleasing to record that, during the whole of the year, the ranks of the Council have remained intact, no extraordinary vacancies having occurred from any cause whatever.

The Journal.

"The Australian Farm and Home," with which the Society's official journal is incorporated, is still forwarded regularly every month to members of the Society. Besides giving an official report of the proceedings at the monthly meetings of Council, this publication contains many articles of educational value, which are, no doubt, of very great interest to the rural producers of the community.

Acknowledgments.

Your Council desires to thank His Excellency the Governor-General, Lord Forster, for extending his patronage to the Society.

The warmest thanks of the Society are due to the former Governor-General and Viscountess Novar, for the great interest they took in the Society's operations, and particularly to Viscount Novar, for having contributed a valuable cup for competition amongst the agricultural societies of the State.

It is desired to thank His Excellency the Lieutenant-Governor, Sir William H. Irvine, K.C.M.G., for officially opening the Show, and for taking such a keen interest in the Society's welfare.

The Council desires to express its appreciation of the continued assistance of the State Government in granting an annual subsidy, and for awarding a number of special prizes for competition at the recent Show, as well as for providing such a magnificent display of agricultural produce as was arranged in the Government Pavilion at the Showgrounds.

The warmest thanks of the Society are due to the judges and stewards for the very efficient manner in which they carried out their onerous duties at the recent Show.

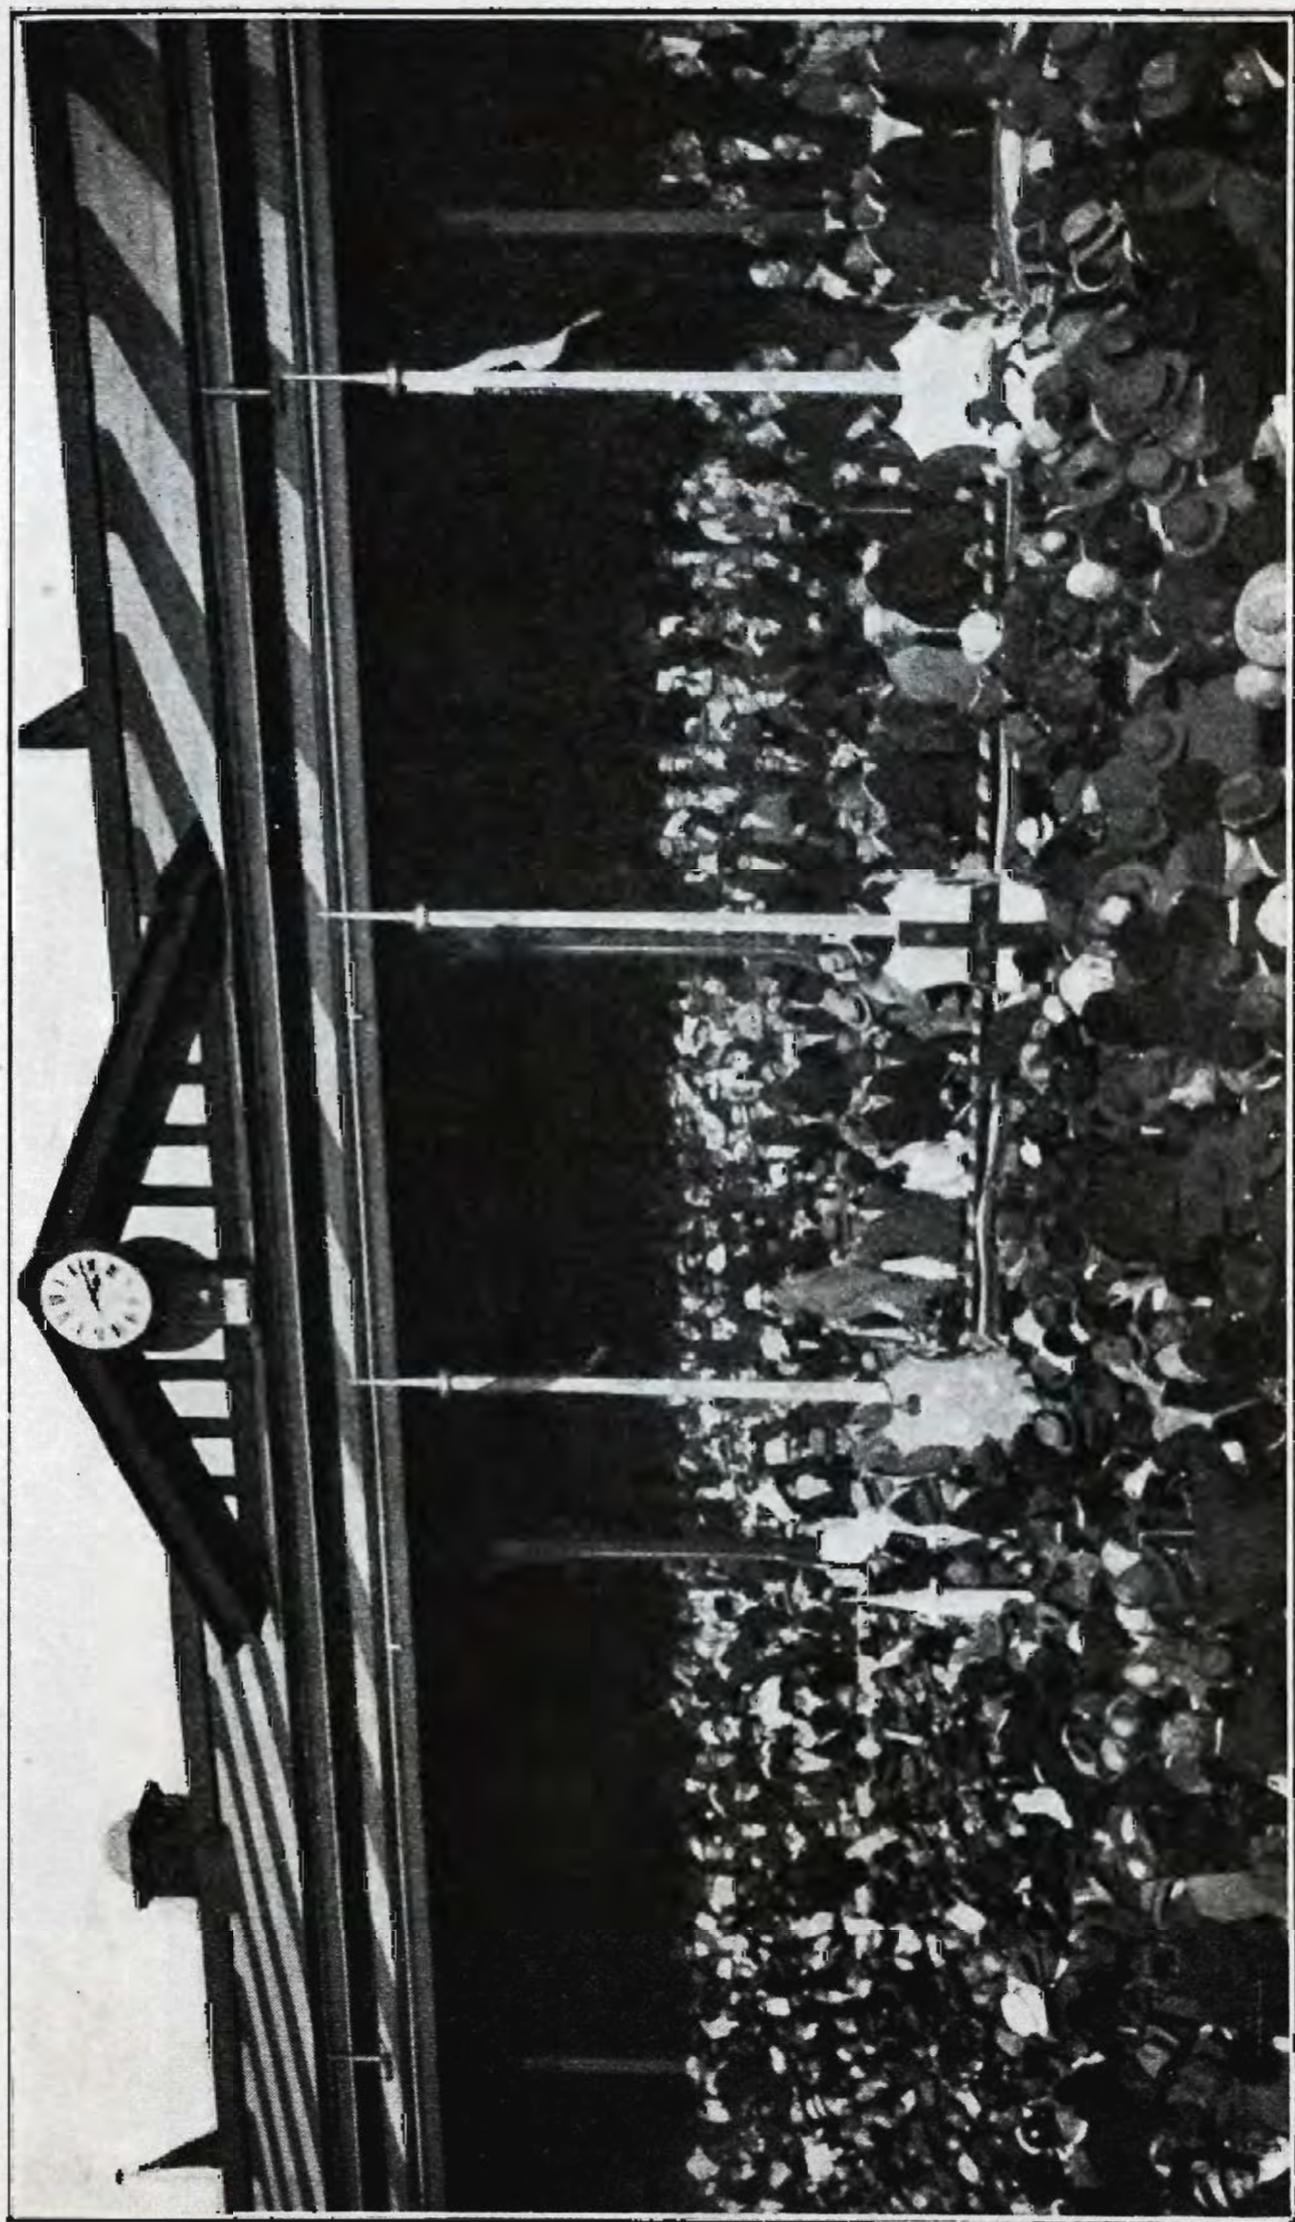

For the liberal support accorded to the Society by the donors to the prize fund, the Council desires to express its warmest appreciation.

The best thanks of the Society are due to the members of the Welsh Choir, the National Rose Society, the Associated Hunt Clubs, the exhibitors of stock and produce, the Wool Broking firms, the Fruitgrowers' Associations, the Butter Factory Companies, and all others who assisted in making the Special Show, held in honour of the visit of His Royal Highness the Prince of Wales, so pronounced a success.

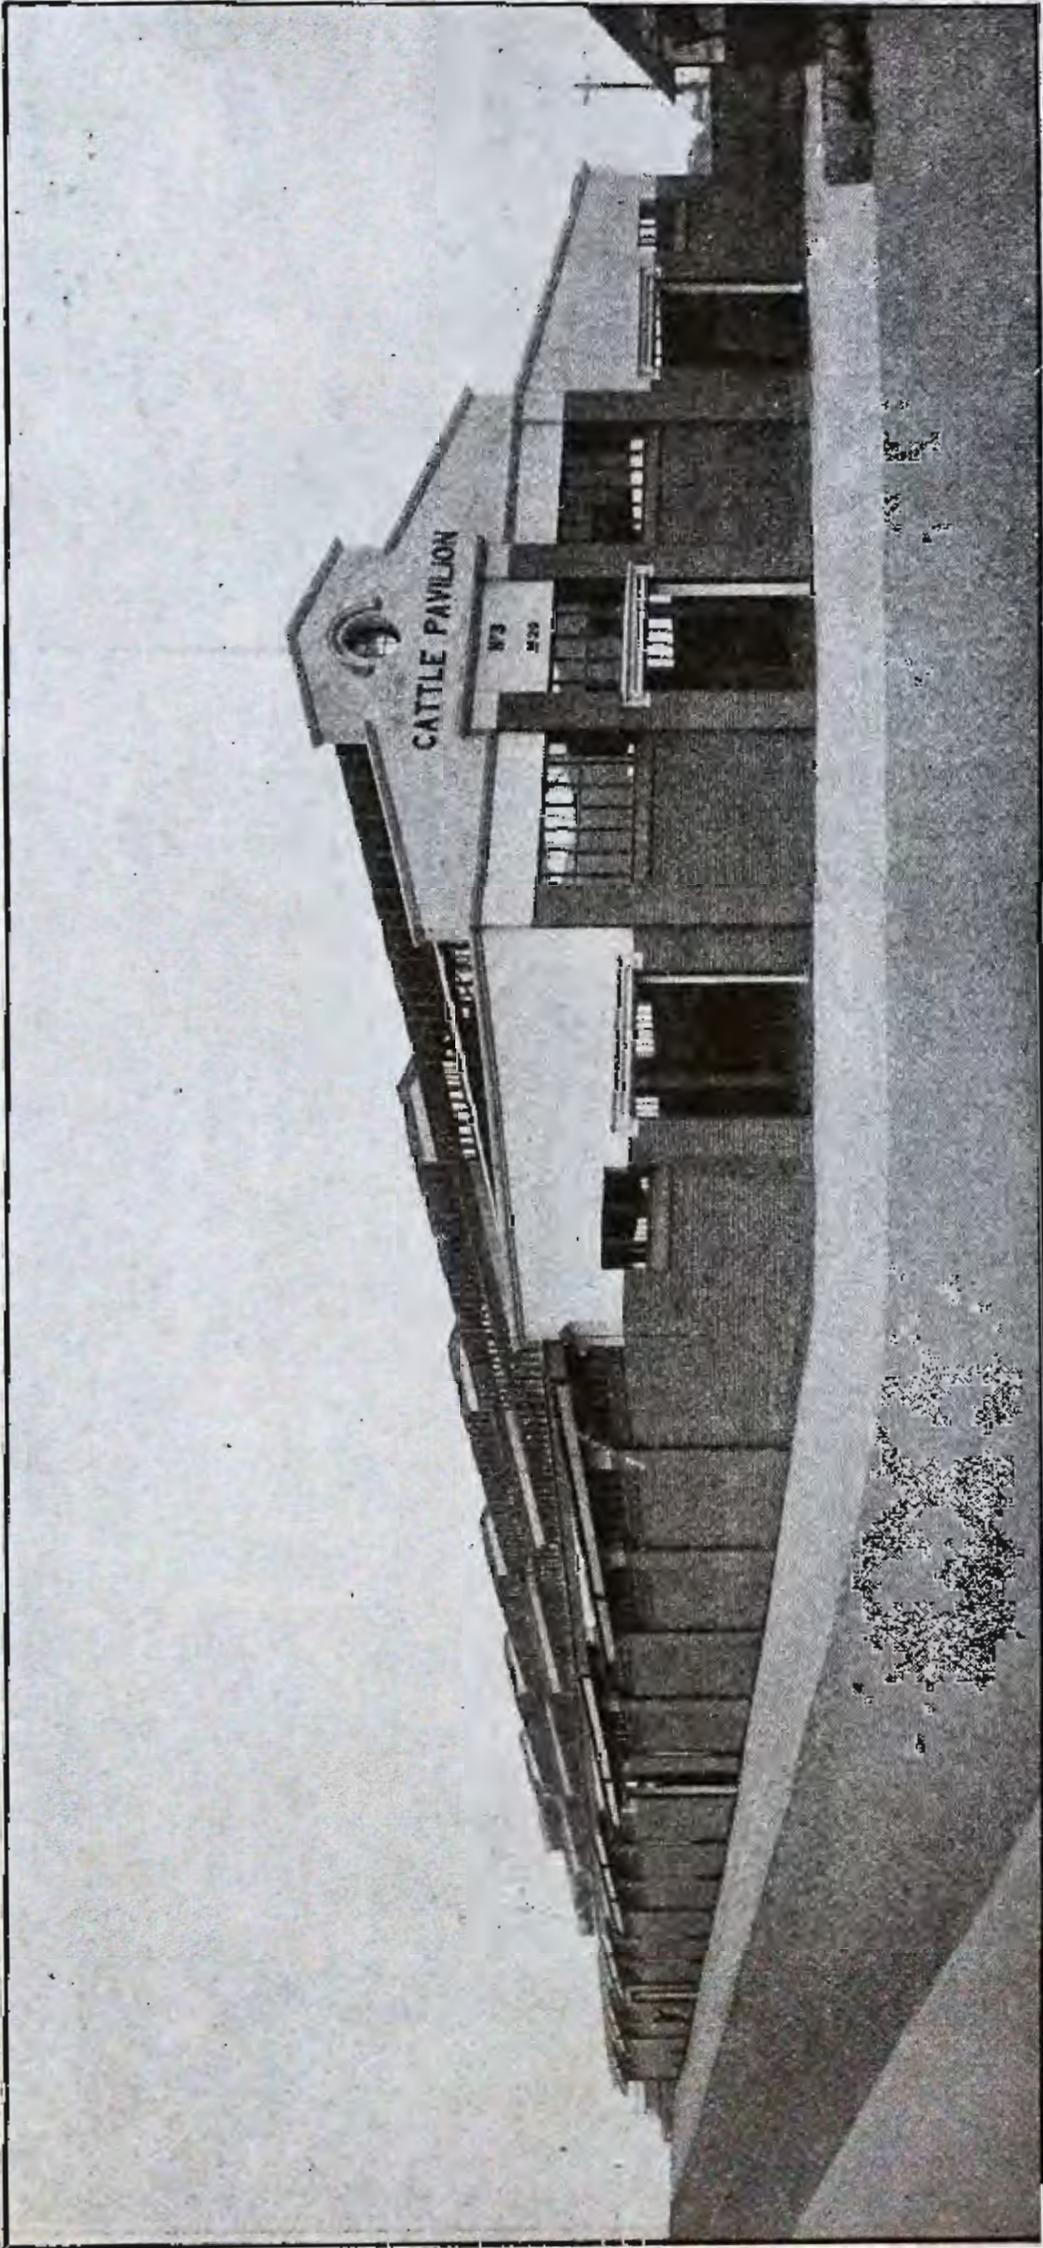

It is also desired to thank the press for having kept the operations of the Society so prominently before the public, and to all others who in any way assisted in furthering the interests of the Society your Council extends its warmest thanks.

Finance.

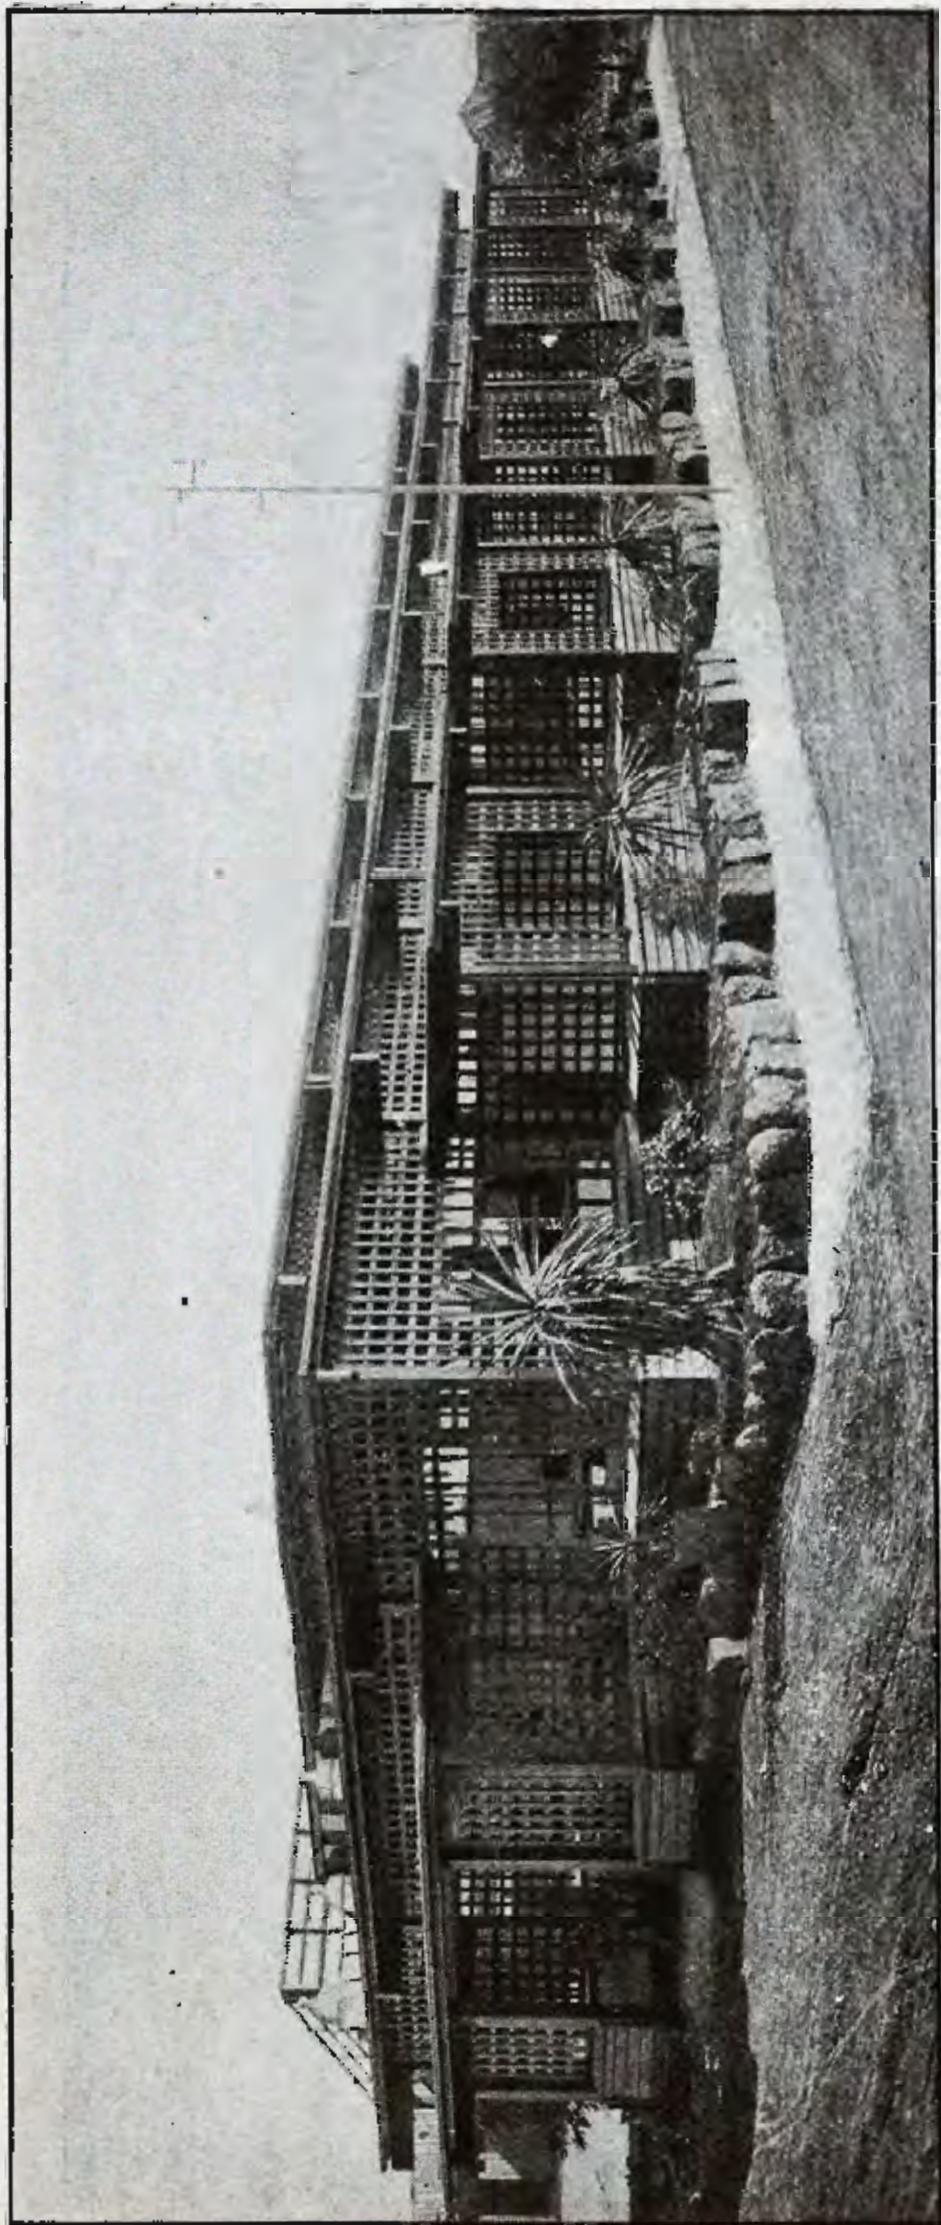

As indicated in the last annual report, the whole of the £40,000 loan advanced by the Government has now been expended upon permanent improvements, and, in future, any fresh works will have to be paid for out of the Society's annual revenue.

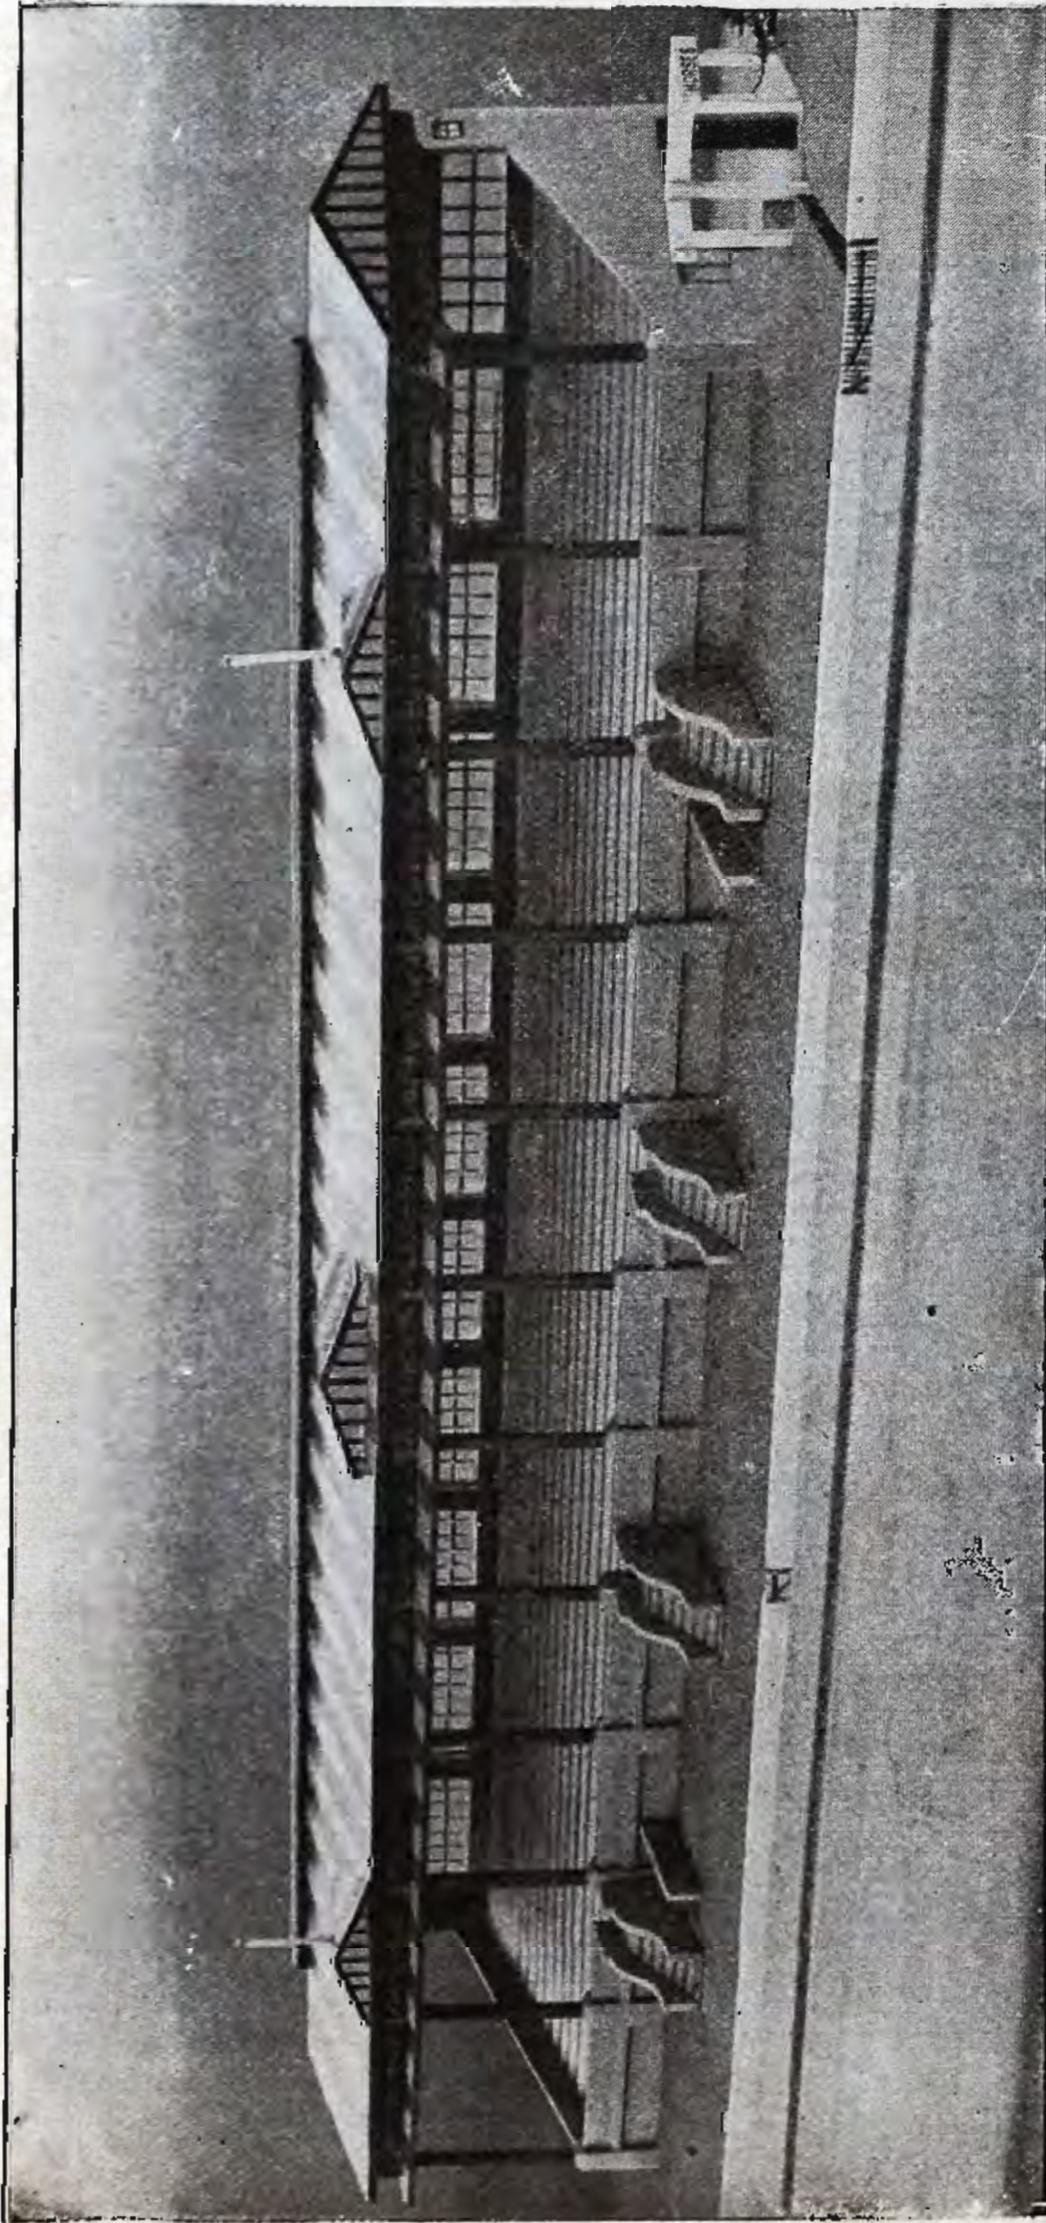

PRESENTATION OF ADDRESS TO H.R.H. THE PRINCE OF WALES, 29TH MAY, 1920.

NO. 3 CATTLE PAVILION. ERECTED 1920.

ALFRESCO TFA ROOM. ERECTED 1920.

PHOTOGRAPH OF A MODEL OF THE MEMBERS' GRANDSTAND THAT IT IS PROPOSED TO ERECT IN 1921 IN COMMEMORATION OF THE JUBILEE OF THE ROYAL AGRICULTURAL SOCIETY OF VICTORIA.

Owing to the increased cost of all classes of building material, and the higher wages that must be paid, the maintenance of the Society's property takes so much of the available revenue that very little will be left for carrying out future improvements, notwithstanding that the increased charges in members' subscriptions, in entry fees and admission charges, provide a substantial addition to the annual revenue.

Amongst the activities conducted by the Society is the carrying out of the secretarial work associated with the Chamber of Agriculture, and a number of stud and herd book societies, and, owing to the greater accuracy that is now demanded in the compilation of all classes of stud books, and the general desire for the very fullest information in all publications that are issued, the amount of clerical work has increased very materially; and, although all of these organisations pay to the Society a sum which a few years ago was considered adequate to meet expenses, it was ascertained that, during the twelve months ending on the 30th of November, 1920, the cost of services rendered was £581/13/3 in excess of the amount received in fees. Of this amount, £371/4/2 was borne by the Society, and £210/2/1 by the Society's staff in a voluntary way. This state of affairs was considered by the Council as very unsatisfactory, and it was consequently unanimously resolved to communicate with the organisations concerned, and inform them of the present position, and impress upon them the necessity of making such arrangements as will cover the full cost of conducting their clerical work.

On reference to the Financial Statement it will be seen that the revenue for the year was £46,468/4/4. This amount includes advances by the Government to the extent of £8,800 and subscriptions and donations to the Jubilee Grand Stand Trust Account of £7,734/10/-.

Excluding these amounts and the advances made by the Government last year the revenue shows an increase of £3,405/6/- on that of last year.

The expenditure (including £5,911/4/- in prizes, £7,344/2/9 in the purchase of property, and £15,485/14/4 for buildings and improvements) amounted to £59,973/10/5, the Bank overdraft being increased from £18,825/15/6 to £32,331/1/7, and the Society's indebtedness to the Government, inclusive of interest, increased during the year from £34,750/3/- to £43,459/5/7, whilst on the other hand a sum of £7,688/10/- has been deposited in the Jubilee Grand Stand Trust Account.

Taking the expenditure in permanent improvements and the purchase of property as assets, the working expenses show a profit on the year's transactions of £478/11/- as against last year's profit of £5,360/3/10.
